

THE ACADEMY OF BEHAVIORAL FINANCE &
ECONOMICS

**The 2012 Annual
Meeting of the
Academy of
Behavioral Finance &
Economics**

Program- 2012

September 18-21, 2012
NYU-Poly Campus
New York, NY, USA

Dear Colleagues,

It is with great pleasure that we welcome you to NYU-Poly, the city of New York, and the 2012 Annual Meeting of the Academy of Behavioral Finance & Economics.

In New York, all things are big, and this conference is no exception. Our fourth annual conference is the biggest to date. With more than 100 presentations and related functions and around 200 attendees including top researchers and practitioners from across the globe, our Academy continues to grow in leaps and bounds. This year, we are also honored to have world-renowned scholar and Nobel Laureate in Economics Professor Joseph Stiglitz as the Keynote Speaker.

We are also proud to announce the continuation of two initiatives this year: ABF&E's Fellows Program, and the "Awards for the Best Doctoral Student Papers in Behavioral Finance" for which we received 14 submissions; another record number. These two programs are great additions to the academy's highly successful Behavioral Finance Networking Groups on LinkedIn; "Behavioral Finance: Theory & Practice" and "Behavioral Finance Theory" groups. Both BFT&P and BFT are membership organizations where members have to apply for joining. BFT&P currently has around 2,500 active members and continues to grow fast since its inception just two years ago.

For those who are interested in submitting a paper to The Journal of Behavioral Finance & Economics, please submit your paper to us via staff@aobf.org after the conference is over, but by no later than October 31st as stated on our website. Authors of quantitative-heavy behavioral papers that fit the aims and scope of Algorithmic Finance are invited to consider submitting there instead as an alternative outlet; please see the website algorithmicfinance.org for more info. We highly recommend incorporating into your paper any suggestions made to you during the conference.

We would like to extend our sincere thanks to NYU-Poly and the Department of Finance and Risk Engineering for sponsoring and hosting us, especially to Department Chairman Charles S. Tapiero and NYU-Poly Provost Katepalli R. Sreenivasan.

Our special thanks go to Professor Joseph Stiglitz who kindly and selflessly accepted to speak at this year's meeting despite an extremely busy schedule and prior engagements. Special thanks also go to Dan Goldstein for kindly agreeing to open the conference. Finally, we would like to thank the Organizing Committee members and especially Dr. Avanihar Subrahmanyam, Dr. Robert Olsen, Dr. James Howard, Dr. Jeffrey Wurgler, and the Academy's Advisory Board, as well as other supporters who have made this event, and the academy, something very special.

Enjoy the rich and well-represented conference and let us further strengthen the Academy of Behavioral Finance as it is fast realizing its vision of being "*The Home* for Behavioral Finance & Economics Worldwide." We are very much looking forward to meeting each of you.

Cheers!

12:30 to 2:00

Keynote Address:

**Professor Joseph E. Stiglitz
Nobel Laureate in Economics**

Location: Pfizer Auditorium

**TOPIC: Reforming Finance and Economics in the
Wake of the Global Financial Crisis**

The financial crisis of 2008 and the ensuing economic slowdown showed the deep flaws in the prevailing economic paradigms, and in the under-regulated financial markets to which they gave rise. In this lecture, Nobel laureate Joseph E. Stiglitz will discuss the fundamental changes that need to take place in the economics profession and in the world of finance so that such crises are less common and less devastating -- and so that our economy grows sustainably, equitably, and in the service of society.
